SANITATION DISTRICTS GET GRANTS AS SUPS. DRAW FIRST EXTRA PAY

SAN DIEGO (CNS) — The L.G. and S.V. Sanitation Districts have just received federal grants totalling almost \$450,000, to offset their payments into the San Diego Metropolitan Sewerage System.

This information was given last week to the County Board of Supervisors, holding their first semi-monthly meeting as directors of the county's sanitation districts.

A recent charter change allows Supervisors to collect fees for serving as sanitation district directors. They are to meet every first and third Monday hereafter, to earn those fees. They can receive up to about \$3,100 annually, to add to their salaries of \$8,400.

Warren Barney, director of the newly created special district services department, reported that the Lemon Grove district is receiving \$197,360. This will reduce its payment for participation in the metropolitan system from \$33,399 annually to \$23,385.

The Spring Valley district is receiving \$250,000, cutting its annual payment rate from \$71,568 to \$58,883.

They Can't Kill A Guy For Tryin'

We are in receipt of a communication entitled "Worker Cannot Draw Unemployment Pay While On Job Court Rules."

There's a weird-o, if ever there was one, for you Constitution buffs.

The announcement tells how a working stiff in South Gate plant of General Motors drew unemployment checks while he was working full time at the GM factory. He drew \$55 a week over a period of many weeks in 1960.

GM squawked and contended that the employee, a guy named H. D. Sample, has falsified his claim to the State.

The Attorney General of the State contended, as probably every New Frontier Attorney General in the U.S. would, that while Sample had willfully and knowingly filed the false claims, he did not know it would harm his employer and therefore, his acts should not be classified as misconduct. Under such a condition, it was argued, Sample should receive unemployment benefits.

But he was charged with being guilty of misconduct and fired.

So what did Sample do?

He did what every welfare loving American does when he gets sacked . . . he applied for unemployment pay.

This time the claim was challenged by GM.

The referee for the Department of Employment and its Appeals Board granted Sample \$55 a week, ruling that while the fraud was confessed, he had not indeed committed an act of misconduct against his employer.

What kind of bureaucratic gobbledy-gook is that?

Superior Court Judge K. N. Chantry then brought a little sanity into the action when GM appealed to him.

In handing down his decision against Sample and the overly generous State boys, Judge Chantry ruled, "To say that an employer has no right to expect his employees not to cheat the State and the employers by obtaining money by false representations that he is unemployed, is to my mind, so patently ridiculous as to require no refutation.

" . . . it behooves the Court to decide in accordance with principles of honor, truth and integrity, rather than uphold dishonesty, deceit and fraud. end of quote.

Citizens Profit By Sheriff Deputy Restraint In Fracas

The fracas at Sweetwater Rodeo last week in which 17 police units took part, after the men of the Sheriff's department were being roughed up, reminded us again of the admirable restraint these young bucks exercise.

Imagine, if you will, yourself as one of three officers in a hostile crowd of sweaty, beer drinking men, apparently dedi-

List Reaches 666; Expect More Than 1,000 At Finale

Stragglers accounted for 67 more contributions to the Spring Valley Welfare Assn. fund-raising campaign.

These people brought the new total to 666 as the number of local residents participating in the project.

A share of the subscription price of each subscriber is turned over to the Welfare Assn. each week and this money is used to cover some of the needs of the Spring Valley organization.

Solicitors have stopped working on the project but the list will continue for several weeks. The contribution is not made by this publication until the subscription money arrives at this office.

The S.V. Welfare Assn. provides for staple needs and clothing for families in distress in the community. The need this year has been acute reported Thelma Lewis, in charge of the food and clothing gathering center.

The list appearing in this publication lags several days because of the time consumed in processing each subscriber.

A few additional days lag results from the subscriber getting around to submitting his check for the subscription. The cost of the subscription, by the way, is \$3.50 for a full year.

There has been no increase in subscription rates to cover the contribution this newspaper is

Jr. College Grading Bid \$134,000 Under Estimate

A contract for rough grading for the Grossmont College site has been awarded by the Grossmont Junior College District Board of Trustees to the Baxter Corp. of El Cajon who submitted the low bid of \$134,000. High bid was \$942,253.

Five other bids were received ranging from \$410,000 to \$518,000. The low bid was \$134,000 below the engineering estimate, reflecting a highly competitive condition in the grading industry. The contract will allow 150 days for completion which should result in the site's being ready for construction work to begin by the middle of July. The schedule calls for the working drawings to be prepared and processed through the Division of Architecture by that time.

The contract includes provision of storm drains and erosion control structures at a cost

of \$59,778. The excavation requires a cut and fill operation totalling over one million cubic yards at a cost of \$280,900.

Grossmont College Associate Superintendent Harold G. Hughes said the site will be graded into approximately five major areas with a maximum range in elevation of 25 feet. Gradual transition from one level to another will provide level to level except for the football field which will be 35 feet lower, forming a natural horse shoe shaped bowl. "Grading at several aesthetic qualities of the site and create a more attractive appearance than would be possible if the grading were to be done at one level," said Hughes. With one exception of the north lot, the major parking areas will be slightly below the level of the building area.

The club, open to the public via membership charges has added a steam room and another clubhouse since the close of last season. It has greatly expanded its snack-bar facilities and increased the paved parking area to handle 60 cars. The club has two large swimming pools.

Started In 1956

The facility was started in 1956 by John and Elda Carovano who live adjacent to the five acres the club will eventually occupy. So far only 1 3/4 acres are being utilized. The

couple started the club with one swimming pool with an eye toward providing country club-like recreational facilities for middle-income families, but without the country club-like costs, according to Elda Carovano, who manages the facility.

"We decided on an 8-month operating schedule instead of 12 and we rejected the bar and dining room concept usually associated with country clubs. This allowed us to reduce the cost to about \$10 a month a family, which is even less costly than public facilities," she said.

Represents \$500,000

The establishment, when completed, will represent an investment of about \$500,000 she said. "We have invested over \$200,000 in the recreation for fam-

ilies concept. The newly added facilities represent about \$60,000," she said.

The plot plan for total development includes addition of tennis courts and volleyball and handball courts. Nine duplexes and a fourplex will be built around the club before the project is complete, she said.

The club now has a membership of 350 families. Membership admissions will close when the number reaches 500, she said.

The club house, while developed for the use of members, will be available for private parties by others than members. Mrs. Carovano said. Catering service for parties will be available to those who reserve the clubhouse, she added.

The club's season opens March 1.

CAMP FIRE GIRLS APPRECIATE PUBLICITY

Dear Editor:

The San Diego County Council of Camp Fire Girls wishes to express its deepest appreciation and thanks for the publicity your paper gave us prior to and during our recent Peanut Sale, January 28 to February 3, 1963.

We feel that your fine publicity helped us to have the most successful Peanut Sale in the history of our Council.

Thank you again.
Sincerely,

STORY IS AID TO EPISCOPAL ART TOUR

Dear Editor:

Thank you for the generous publicity given the Home Art Tour and Progressive Luncheon sponsored by the Women's Committee of the Episcopal Community Service.

Again, I am personally grateful to you, as is the Episcopal Community Service.

MATADOR BAND PARENTS THANK PAPER FOR AIDING ROSE PARADE EXPEDITION

Dear Editor:

"Thank you" have become two big words in the Mt. Miguel Music Parent's vocabulary. "Thank you for making it possible for our band to go to the Rose Parade" is a phrase we have said or written, several hundred times in the past two months, and we have become in-

creasingly aware that never did any group owe so much to so many.

Perhaps we owe our greatest debt to you—for your kindness and courtesy, your interested cooperation, and your ever-lasting patience with our problems. So thank you, and please convey our thanks to your staff, whose attitude was a replica of your own. We sincerely believe that without your help (which was certainly above and beyond the call of duty), the best band in the county might never have been seen in Pasadena.

We have no hope of repaying you for your efforts in our behalf, but it would make us very happy if we could afford you a couple of hours of fun and relaxation. The Mt. Miguel Music Parents' Club is presenting its third annual Variety Show on March 22 and 23. We would consider it a great honor if you and your family would attend as our guests.

Sincerely yours,
MT. MIGUEL MUSIC PARENTS CLUB, Inc.

L.G. TEACHERS GROUP APPRECIATES EDITORIAL SUPPORT GIVEN SCHOOLS

Dear Editor:

In reference to your Dimmer View comments regarding passage of the approaching tax override election in the Lemon Grove School District, we would like to express our appreciation for your fine support in this matter.

The Lemon Grove District Teachers Association has long recognized your sincere efforts in reporting to and informing citizens of the community about their schools. This has always been done in an objective and positive manner and, as a result, the community is becoming increasingly aware that greater local responsibility is necessary in order to secure and maintain quality education for our children.

You have certainly demonstrated your willingness to accept the challenge of local responsibility for local schools.

Sincerely,
Dorothy Pavlovec
Secretary
L.G. District Teachers Assn.

PAPER GIVEN CREDIT FOR MAKING PEOPLE MORE AWARE OF RED CROSS

Dear Editor:

First, may I express to you the sincere thanks of our county-wide Red Cross and our thousands of volunteers for your always excellent cooperation. Through your newspaper the Red Cross has been able to more effectively keep the community aware of Red Cross services. This is particularly appreciated by Mrs. Russell Brannan, chairman of our Helix Branch, and the Board of Directors.

At a meeting January 7, of the Board of Directors of the Lemon Grove Kiwanis Club, they voted to add their support to the traditional Red Cross membership appeal. As you know, the demand for Red Cross services in this key military area is greater than ever before. The Kiwanis Club named Dr. Frank Gigliotti to work with Mrs. Brannan and to chairman the Fund Appeal in Lemon Grove and adjacent areas.

Again our very real thanks.
Sincerely,
O. T. Todd, Jr.
Chapter Chairman

READER FINDS TRAFFIC SIGNS INADEQUATE

Dear Editor:

A few weeks ago I wrote a letter to the editor of the UNION airing my terrific gripes about signs—too small, too big, hidden, inadequate, inconsistent, etc. etc.

I realized afterwards that part of my letter concerned Lemon Grove. Then I thought I'd try to see about getting some signs removed from certain places. I was sent, verbally, from one detour to another, without any satisfaction whatever, with rising discontent in me and rising anger and irritation on the part of the senders.

Since I firmly believe in the power of the press and have had almost immediate action on other occasions, I thought I'd see if it would work in this case.

Right now the sign that is most annoying is one at the foot of Canton and Imperial. Several roads come together at

Monterey Heights PTA Plans 'Founder's Day' Program For Tonight

Monterey Heights PTA will meet tonight at 7:30 in the school cafeteria, 7550 Canton dr. "Focus on Our Heritage and Hope" is the theme for the Founders' Day program that is planned.

Mothers of combination classes of rooms 3, 8 and 12 will be hostesses. Child care will be provided.

A poll will be taken to determine how the PTA members feel about federal aid to education, an issue receiving much attention.

The February board meeting of Monterey Heights PTA was at the home of Mrs. Ray Minor.

Mrs. Thomas Clabby, legislative chairman reported on the Ninth District legislative meeting at which federal aid to education was discussed.

It was confirmed by the board that members will contact voters by means of canvass and coffee hours to answer questions regarding the Lemon Grove School District Override Tax which comes up for vote on March 5.

Mrs. Robert Sjogren, parent education co-chairman announced that a Red Cross first aid course will begin Feb. 20. Classes will be in the school cafeteria from 7:30 to 9:30 p.m. for six successive Wednesdays.

that point. There is always some traffic.

There is a large Halecrest Heights sign there (now defaced) which is also a hazard as you must drive out past the "stop" sign to see if traffic is clear along Imperial.

I wasn't able to find anyone to contact regarding moving this ugly sign. The Halecrest Company moved out of the area over a year ago.

There are other signs in the area hidden by plants and trees, or too small to be seen until you are on them. There are streets with speed limits varying from block to block, all of them ignored, so far as I have noticed.

I enjoy living in Lemon Grove, but I do think something should be done about this sign situation. Right now I'd settle for removal of the sign blemish that says Halecrest Heights. If the proper authorities do not see my letter (which I hope you will publish) maybe someone can tell me who must be contacted about it.

Thank you.
Sincerely,
(Mrs. G.G.) Candy Walker

cated to preventing the apprehension of any one of their number.

See yourself getting pushed, punched and scratched by an overwhelming crowd, none of whom seem willing to side with the "law."

Observe that one of the group is more belligerent than the others and that he refuses to desist on your orders.

See yourself walking toward the belligerent, advising him that he is under arrest, with bystanders hooting and shoving.

Now you are running after him because he changed from a posture of belligerency, with his fists up, to a frightened man who suddenly bolted and ran.

As you tackle him and bear him to the ground you are stomped and kicked by bystanders and your antagonist squirms loose and flees again.

You charge after your quarry and other bystanders block your way.

How do you keep law and order you have sworn to uphold? Using your sidearm, a weapon you have been trained in for all the years as a sheriff's deputy, would restore order.

It would also mean that someone would be shot, and possibly killed.

Finally other police units begin to show up in response to an alarm.

You track down your man to make good the arrest and the crowd becomes benign as more police arrive.

You find him crouching behind a toilet in the men's room. He is no longer belligerent.

You are scratched and bruised and your uniform is torn.

You are the injury victim. The law-breaker is unhurt.

You see that fellow officers have arrested two other men.

The crowd begins to disperse quickly as the battle ends.

Your bruises are painful.

Your prisoner is in the patrol car.

Your sidearm still rests in its holster.

There is no wounded citizen lying huddled on the dusty field.

Suddenly you know it was right to suffer more abuse than required by regulations because "duty" has a much wider meaning than "assignment."

This newspaper takes this opportunity to commend youthful Deputy Sheriffs Don Stewart, Fraser Moyer, and Roger Jacobs who performed their duty in the best traditions of law enforcement officers by showing mature restraint by not using firearms in a situation that would have justified it.

Streeter King, your telephone manager in Lemon Grove.

WHAT'S DOING

"PINHEADS"—that's what telephone people call these little diodes, first cousins to the transistor. And no wonder, it would take more than 1,000 of them to fill a thimble! Designed by Bell Telephone Laboratories, each pinhead's a little sandwich of specially treated silicon wafers with glass in the middle. It's heat-bonded, plated with nickel and gold, and comes out a whopping 35-thousandths of an inch in diameter by 15-thousandths thick.

But looks are deceiving. Pinheads do a big job as super-sensitive "gates", or switches, for controlling current flow in electronic circuitry. They're used in computers for missile and space projects, and will ultimately be used in the high-speed electronic telephone switching systems of tomorrow.

From bulldozers to bridal gowns to beekeepers... whatever you may need, if there's someone in town who sells or serves, you'll find them fast in the Yellow Pages of your telephone book.

In fast-growing California, keeping phone books up-to-date is a big job. There are over 4,000,000 names, addresses and phone numbers in the white pages of some 60 books. Not to mention all the Yellow Pages. To assure accuracy, we check each listing six times before printing. And when the presses roll, they roll at 22 miles an hour, turning out—on the average—a new phone book for a different California community every week.

A girl who is expecting a ring will always answer the phone.

People of all ages are becoming more interested in science today and we here at your local Telephone Office are happy to help you know the many wonderments of what goes on behind your dial.

There are many groups taking advantage of our tours through our electronic switching centers. Group tours with a guide explaining the amount of equipment which is activated when you pick up your telephone, will meet you and personally conduct you. They will also be glad to answer questions.

Please call our Business Office, 466-3201, and we will be glad to make arrangements for one of these interesting tours.

COUPON BOOKS BEING SOLD IN LOCAL AREA

The S.D. Better Business Bureau is being deluged with calls from the Spring Valley area concerning a coupon book gimmick.

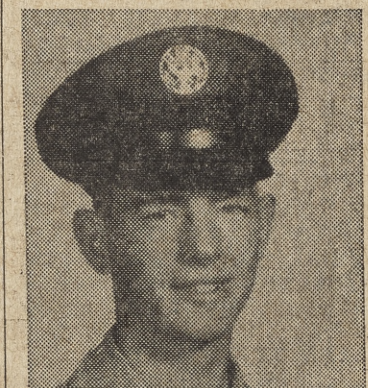

A salesperson calls the resident and offers two types of coupon books for a reported price of \$7 each. In one book merchandise is featured. The other is reported to be made up of service offers "worth several hundred dollars." The coupon book is delivered in person to the purchaser who pays his \$7 or \$14 dollars, depending on his choice.

The Better Business Bureau said it has no performance record on the firm distributing the books because it has been operating locally approximately a month.

"In general," the Bureau said, "coupon books are not satisfactory investments. Frequently merchants refuse to honor coupons when they find their offers may be overly generous and too many of the coupons show up."

The old adage that no firm can give it away and stay in business is a good philosophy, the Bureau points out.

Disgruntled purchasers, if any, should contact the Better Business Bureau at 233-7711 or the sheriff's office, at 232-3811 and register his complaint.
